TECHNICAL INFORMATION

Weight: 13-cut light weight

Shell: 100% KEVLAR branded fibre.

Laundering: Dry cleaning is the acceptable cleaning method for gloves of 100% KEVLAR® fiber with leather palms. Some differences in shrinkage, weight loss, yarn tensile strength, and colour related to staining or the cleaning method may be seen, but there is no significant impact on cut resistance up to 30 cleaning cycles (without industrial use between cycles). Thirty cleaning cycles is considered to be more than can be expected because of normal wear.
Do not launder gloves that have been in contact with toxic chemicals.
