### LEAD-FREE CURB STOP

### T-5200NL

Lead-free design is suitable for all no-lead potable water installations, in full compliance of the lead-free plumbing law.

Copper flare nut end connections provide strong pullout resistance.

90-degree operation with enclosed operating head stops.

Operating head has been drilled to accept stationary rod cotter pin attachment.

Full-port, ball-and-seat design is superior to plug-type designs.

Durable, Teflon\*-coated ball assures positive, bubble-tight shutoff, low torque operation and long service life.

For underground water service installations only, to permit shutoff of the water supply, from the water main to the building.

Available in CTS nominal sizes 3/4" through 2".

#### Working Pressure, Non Shock (PSI)

Cold Working Pressure (CWP): 300 psi - 100°F Max

- Third-party tested and certified in compliance with U.S. Federal Public Law 111-380 (National lead-free plumbing law).
- Certified lead-free and in compliance with NSF 372 lead content requirements.
- Manufactured to AWWA C800 specifications.
- Tubing flare end connections are designed to be installed onto correctly-flared Types K or L copper water tubing, compliant with ASTM B88.
