

1" X 12-FT 2-PACK

1" x 12' Retractable Ratchet Tie Down Assembly 2-Pack

Designed for ease of use, this 1" X 12-ft. Retractable Ratchet Tie Down Assembly can hold a variety of items securely. They are convenient to use and can be installed quickly as there is no need to fuss with extra webbing, tying-off the ends, or removing the webbing from the ratchet.

The steel S-hooks have a PE* coating to protect your load from marring and scratches, and provides long-term corrosion resistance to the environment.

The retractable ratchet opens and retracts much like a tape measure, pulling out to desired length and ratchet until tight. To store, simply release tie down assembly from the load and webbing will retract back into the ratchet housing.

* Polyethylene: An artificial resin that is easily molded and is resistant to chemicals.
