GRINDER DISCS & WHEELS

Accessories

Depressed Center Grinding Wheel

For metal polishing and general flat grinding. Aluminum oxide abrasive grains are evenly distributed to give a smooth surface.

Tool must be properly guarded

Size	Grit	Max RPM	Single/(Bulk)	5/Pkg.	1/Pkg.
4" x 3/16" x 5/8"	24	13,700	741402-B	-	741402-B-1

6" x 1/16" x 7/8"	General Purpose	A46T11BF	10,185	724117A25

Flex Wheel

Most versatile wheel for light metal grinding, sanding. Flexibility allows broad surface contact for smooth, even surfaces. Great for weld blending.

GC60 ideally suited for blade sharpening applications.

Use with plastic back-up pad (item #16)

Tool must be properly guarded

Size	Grit	5/ Carton
4" x 1/8" x 5/8"	GC60	794229-5
4" x 1/8" x 5/8"	GC80	794231-8
4" x 1/8" x 5/8"	GC120	794232-6

Abrasive Disc

For sanding metal or wood surface

Grinding and Finish with one Disc

Type 27 / 29

Phenolic Backing

Prevents backing from scratching work surface and full use of disc.

Zirconium Abrasive Grain

Provides consistent high cut rate, runs cooler and lasts longer than aluminum oxide.

Full Range

Popular 36, 40, 60, 80 & 120 grits;
both type 27 & 29; hubbed and non-hubbed.

(type 29) Angled Design

Insures 90% of the abrasive material is in contact with the work surface, providing a superior cut rate and maximum disc life. Works at 10° to 25° angle. Lasts 20X Longer than Resin Fiber Discs.

(type 27) Flat Design

Conforms to flat or irregular surfaces. Excellent finish consistency at a working angle of 0° to 15°. Lasts 30X Longer than Resin Fiber Discs.

Zirconium Multi-Discs

Makita's New Zirconium Multi-Discs

Professional quality discs that give many advantages over Resin fiber discs: lasts longer, grinds, finishes and saves money. As Makita Multi-Disc abrasive cloth flaps wear away, they constantly expose new, sharp grains which produce fast stock removal and consistent finish.

Applications:

- Weld head blending
- Remove weld slag
- Deburring, edge blending
- Surface conditioning
- Metal fabrication

Tool must be properly guarded

Type 29 Angled

(Non-Hubbed)
Depressed Center Wheels
for Metal, Wood & Plastic
